

VocalocityPBX®

Lower Your Phone Costs and Make Life Easier for Customers and Employees

Now your business can have all the benefits of a full-featured phone system like the ones Fortune 500 companies use – at an incredibly affordable price. Save on phone costs while you improve customer satisfaction and employee productivity with advanced features such as voicemail-to-e-mail, cell phone integration, and call groups. Ideal for small and medium-sized businesses, VocalocityPBX is a hosted PBX solution that brings an unmatched level of simplicity, reliability, and cost-effectiveness to your company communications.

THE ADVANTAGES OF VOICE OVER IP (VOIP):

VoIP is fast becoming the standard for business communications. It enables a broader array of features than traditional analog phone systems to improve productivity, enhance customer satisfaction, and deliver exceptional business intelligence. Vocalocity PBX uses your current broadband connection to transport calls over the Internet to deliver superior voice quality and reliability. With VocalocityPBX, the lower cost and robust features offered by VoIP can make a positive impact to your bottom line as you need. Adding extensions down the road is quick and simple. In a matter of minutes, your company can expand to accommodate growth.

Vocalocity reduced overhead and helped increase sales as my office grew seamlessly from one location to three. - Jason VanDevender, CEO, ANSR, Inc.

WHAT YOU GET WITH VOCALOCITYPBX (CONTINUED)

ONE OF A KIND PERSONALIZED SETUP

Vocalocity offers you a unique three-step personalized setup starting with your sales evaluation, and moving along to your account manager for training, and configuration. This account manager will train you on your personal interface, and help you configure the settings and features available within your account. Although the setup for Vocalocity PBX is designed to be simple and user friendly, your account manager will be available to address any questions or concerns that you may encounter along the way.

FREEDOM

With VocalocityPBX, calls can be routed anywhere, to any type of phone. Far-flung offices? No problem! Virtual business? No problem! Your employees can work from the office, home, other work sites, or on the road without impacting sales or customer service. No need to buy extra capacity or worry about how many more extensions your equipment will support before you need to upgrade. With VocalocityPBX, managing company growth is drastically easier. You can get started with as few or as many extensions as you need. Then adding extensions down the road is quick and simple. In a matter of minutes, your company can expand to accommodate growth.

We could not have set up as quickly or operate as efficiently without Vocalocity. I give them top ratings for customer service, quality of service, and support.
- David Fortner, Administrative Officer, Career Training Institute

DO-IT-YOURSELF SIMPLICITY

No need to call the phone company and wait for a technician to make changes to the phone system. The user-friendly Web interface to VocalocityPBX lets you do it all yourself – in an instant. You can turn features on and off as you need them with a click of a mouse.
